

Jeff Tucker - Construction Manager

Jeff Tucker started building residential and multi-family homes about thirty years ago. Originally from Storm Lake, Iowa, Jeff moved to Missouri with his family in 1977. He now has two beautiful children, Wes and Kristy. They enjoy four-wheeling, hunting, frying big messes of fish, and watching movies together. He started building homes shortly after landing in Missouri right out of high school. Focused and effective, Jeff offers those around him a wise and humorous perspective. He brings a profound integrity to the building process, raising the bar on Habitat for Humanity KC's quality.
